Acknowledgement

Receipt is acknowledged of the Amendment filed December 18, 2003.

Reasons for Allowance

Claims 1-24 and 37-58 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance: the best prior art of record, Horiguchi et al., taken alone or in combination of other references, does not teach or fairly suggest a design data recording medium which design data for designing an integrated circuit to be formed on a semiconductor chip; or an integrated circuit comprising, among other things, a substrate potential of MIS transistors commonly used by said first and second logic gates, and wherein said first logic gate and said second logic gate each have two pairs of potential line portions, respectively including portions of said first pair of potential lines and portions of said second pair of potential lines, and further have a portion of at least one substrate potential line which supplies said substrate potential, as set forth in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
